# Vojtěch Fadrný

Senior Software Engineer ve společnosti Chyron  
Czechia

## Summary

I am a Senior Software Engineer specializing on frontend development. Skilled at writing well-designed, testable and efficient codes using the best and the most up-to-date practices in the field of Web development. A quick learner, hard worker and team player who is proficient in a wide range of scripting languages and multimedia Web tools. I currently prefer the React framework, but I also have experience with the Vue.js framework.

I am a part of an agile team. We maintain code review and coding standards in the team. I pay attention to the quality of the code using ESLint / Prettier tools and we write unit tests. We use Storybook for UI documentation.

I prefer contract cooperation and remote work.

Client-side (JS/HTML/CSS) developer; Javascript, Typescript, React, Hooks, Recoil, Redux, Jest, Storybook, Material UI, Node.js, Webpack, MongoDB, Nrwl Nx, gRPC, Docker, Bitbucket.  
Frameworks: React / Vue.js  
In past Firefox Add-ons and Chrome Extensions developer

## Experience

Chyron  
Senior Software Engineer  
2020 - Present (3 years)  
Brno

Projects:

### Live Production Platform

- Chyron LIVE is an end-to-end, cloud-native live video production platform. From anywhere with an internet connection, and via the convenience of a simple web-browser, users can access the Chyron LIVE platform to cut/mix live sources, adjust audio levels across all feeds, play out PRIME-quality graphic packages, create unlimited multimedia playlists and produce live replays with telestration. LIVE's interface is easy-to-operate via complete touchscreen control, traditional computer mouse-and-click, or even from external control devices. Project web: <https://chyron.com/products/live-production-platform/cloud-native-live-production-platform/>

### PRIME Click Effects

- Harnessing decades of experience redefining audio and video content delivery for live sports & entertainment productions, PRIME Click Effects offers a single point of control for your entire stadium and in-venue production. With a simple point and click, easily deliver the real-time graphics, video clips, audio tracks, animations, and sponsor ads that engage fans, strengthen franchise brands, and boost sponsor revenues. Project web: <https://chyron.com/products/uncategorized/stadium-in-venue-production/>

### Live Assist Panels

- Panels is an ideal way to create customized and simplified control for any live production that uses multiple devices or applications.

Tech stack: Javascript/Typescript, React, Hooks, Recoil, Redux, Jest, Storybook, Webpack, MongoDB, Nrwl Nx, gRPC, Docker, Bitbucket.

I'm part of an agile team. We maintain code review and coding standards in the team. I pay attention to the quality of the code using ESLint / Prettier tools and we write unit tests. We use Storybook for UI documentation.
